

EVENT OUTLINE

[Prompt Craft Challenge]

Overview

The Prompt Craft Challenge is a hands-on competitive event designed to introduce first-year students to the practical application of Artificial Intelligence tools in real-world problem-solving. Participants will be presented with authentic, real-world problem statements and tasked with crafting effective prompts to guide AI tools toward generating optimal, actionable solutions.

Objective

The event aims to build foundational skills in prompt engineering, a rapidly growing competency in the AI-driven landscape, while encouraging participants to think critically about how problems can be broken down, reframed, and solved using AI as a collaborative tool rather than a mere answer-generator.

Target Audience

This event is exclusively designed for first-year students, providing them an early, low-pressure introduction to AI literacy and prompt design without requiring prior technical expertise.

Evaluation Criteria

- Clarity and structure of the prompt
- Relevance and accuracy of the AI-generated solution
- Creativity and originality in framing the problem
- Efficiency (number of iterations needed to reach an optimal output)

******Roles and responsibilities to be decided in the upcoming meet ******

Time	Activity
9:30 AM – 10:00 AM	Registration and Welcome
10:00 AM – 10:10 AM	Inauguration and Lamp Lighting
10:10 AM – 10:20 AM	Welcome Address by IEEE WIE
10:20 AM – 10:30 AM	Event Briefing and discussion of rules
10:30 AM – 1:30 PM	Commencement of the challenge
1:30PM – 2:30 PM	Review and result
2:30PM – 2:45 PM	Felicitation / Appreciation
2:45 PM – 2:50 PM	Vote of Thanks
2:50PM – 3:15 PM	Group Photograph and Conclusion
